

**Workshop on
IPR Knowledge and Skill development with
Special Reference to Patents and Start-ups**

August 23-27, 2021

Organized by

**Department of Mechanical Engineering
NIT Mizoram, Chaltlang, Aizawl- 796012
Mizoram, India
www.nitmz.ac.in**

Introduction

Intellectual Property rights are the driving force behind all technological commercial activities. Consequently, the ever increasing technological development and the associated competitions to the increasing market standards have become matters of great concern. Further, Intellectual Property rights are considered as a barometer of R&D activities, encourages technology transfer, national / foreign direct investments and helps in technological / industrial development. From last many years, when all other Institutes are filing several IP applications in the country at higher rate. NIT Mizoram is lagging significantly in patent filing despite significant contribution towards R&D by various professors, students etc. Hence, this workshop program is planned to accelerate filing of patent applications from NIT Mizoram. With this background, a workshop on '**IPR knowledge and skill development with Special Reference to Patents and Start-ups**' is being organized for students, middle level practicing engineers, and personnel from teaching and R&D institutions.

Who can Attend

Faculty, Scientists, Research Scholars, Students and Persons from Industries.

Registration Fee

There is no registration fee to attend this workshop.

Course Contents

The sessions include lectures by experts graduated from Premier Institutions like NIT's, IIT's, and working in leading Automobile Industries in R&D, IPR etc. The topics covered are:

- **Patents**
- **Start-ups and IPR**
- **Copyright and Design Rights**
- **IPR Searching**

Objectives

The prime objective of this workshop is to educate acquaint the participants with recent developments in intellectual property rights. Further, it will empower students, and faculty Members in filing of patents and documenting IPR generated through research activity of the Institute. Attending this course will be of great benefit to the faculty members by familiarizing themselves with the state of the art in Intellectual Property rights and planning long-term research programmes. For students, working Engineers and scientists, the program me will open up new vistas for the knowledge of Intellectual Property rights of protecting emerging technologies to the problems that they are currently facing and also they can identify topics for future research and development.
